

digiM is providing the digital platform for marketing as well as educational platform for the digital marketing strategy.

Apart of these two features there are feature called "**Ideas**" in which user can share their ideas as a formate of text or images.

"**EDUCATION**" feature is kind of infromative education part where all the digital marketing strategy and the factors are describe by the Admin.

"**PROMOTE**" is feature where user can promote their social media profile as a personal profile or brand and maximize their reach towards the large digital world.

digiM is providing the digital platform for marketing as well as educational platform for the digital marketing strategy.
